

# Mechatronics

A dynamic field loaded with technological advances, mechatronics is a great career for anyone interested in mechanical, instrumentation, electronics, robotics/automation, computer system components, and control systems. Students will use their hands and minds to become maintenance and trouble-shooting technicians for top-earning jobs in industrial machinery.

## Potential Career & Earnings

Maintenance Technician | \$45,300

# Mechatronics

We've designed our Mechatronics program to be very flexible by pairing online coursework with labs that can be scheduled at the student's convenience.

ASU Mid-South offers multiple Certificates of Proficiency in Mechatronics covering electrical, mechanical, maintenance and troubleshooting. Students can also earn an AAS degree in General Technology with an emphasis on Mechatronics.

The electrical curriculum is geared toward installing, maintaining and troubleshooting circuitry, wiring, programmable logic controllers, electro-fluid power controls, and electronic drive systems. The mechanical curriculum teaches the skills needed to work on hydraulic/pneumatic systems, mechanical drives and bearings, and conveyor systems.

For more information about our Mechatronics program, visit our website at [www.asumidsouth.edu](http://www.asumidsouth.edu) or contact the Admissions Office at **870.733.6728** or **admissions@midsouthcc.edu**.

Students with disabilities verified by a qualified physician are entitled to reasonable accommodations needed to complete their educational goals while attending ASU Mid-South.
