Safety Data Sheets

Safety Data Sheets are required for all chemicals used in the workplace. However, the workplace isn't the only place where we come into contact with chemicals. Chemicals are used in homes for cleaning, cooking, home maintenance, etc. What are some chemicals you use at home? Using the internet, find the SDS for 4 chemicals you use around your home and complete the SDS table below.

Chemical Name	NFPA / Fisher Science Education Rating	HMIS® III Rating	Flinn Scientific, Inc. Rating	SAF-T-DATA™ (J.T. Baker) Rating	GHS Rating	Personal Protective Equipment (PPE)	Waste Disposal Method
	◆ Health	Health	Health	Health	Health		
	◆ Flammability	Flammability	Flammability	Flammability	Environmental		
	◆ Reactivity	Physical Hazard	Reactivity	Reactivity	Physical		
	◇ Special	PPE	Exposure	Contact	N/A
